FAIR OAKS BULB GARDENS
WOODBURN, OREGON
1929

Foreword

Bulbs:

We offer only first size selected bulbs of highest quality from which no flowers have been cut.

Guarantee:

Our bulbs are guaranteed true to name and are certified by government inspectors.

Varieties:

The bulbs listed have been chosen with extreme care and include only the best varieties in each group.

Terms:—Cash with order.

6 bulbs of one variety at dozen rate.

25 bulbs of one variety at hundred rate.

No order for less than \$1.00.

All bulbs will be forwarded prepaid to all points in the United States.

Narcissi or Daffodils

These are almost the first flowers to bloom in the spring and by a judicious selection of varieties may be enjoyed over a period of two months. Most of them may also be forced for winter bloom. Our bulbs are grown in the famous Willamette valley of Oregon where soil and climate combine to produce the finest bulbs. Shipment can be made any time after August first.

Tulips

Tulips are hardy and of easy culture, giving a brilliant display from early April to the end of May. Charming effects are obtained by planting them in the open spaces among the shrubbery or in the herbaceous border. For best effects allow four bulbs for each square foot to be planted. The varieties we offer are the best of their type and color.

EARLY TULIPS

GARDEN CINDERELLAS:

HOW TO GROW LILIES IN THE GARDEN

By HELEN M. FOX

Foreword by E. H. Wilson, keeper of the Arnold Arboretum

This is the only complete and practical book on Lily growing for the amateur gardener. Mrs. Fox has grown these beautiful flowers in her own garden for 14 years; she knows every detail of their culture from experience, from careful study, and from collaboration with other growers.

269 pp.; 4 color plates, 29 halftones, 18 line drawings;
6 x 8¾ in.; Cloth; \$5.00.
